

2027 Biweekly Payday Calendar

Every 2027 payday for people paid every other Friday, for both Friday pay cycles, with the months that get a third paycheck marked.

Step 1: find your cycle. Look at your last payday of 2026.

- Paid on **Fri Dec 18, 2026**? You're on **Cycle A**: paydays start Fri Jan 1, 2027 (27 paydays in 2027).
- Paid on **Fri Dec 25, 2026**? You're on **Cycle B**: paydays start Fri Jan 8, 2027 (26 paydays in 2027).

Not sure? Count back from any recent payday in steps of 14 days, or ask your payroll team.

Step 2: circle your 3-paycheck months. Most months have 2 biweekly paydays. A few have 3:

- Cycle A: **January, July, December**
- Cycle B: **April, October**

If your monthly bills are covered by 2 paychecks, the third one is free to plan: savings, debt, or next year's yearly costs. Page 5 has space for that.

Holiday paydays. Some Friday paydays land on a federal bank holiday: Cycle A on Jan 1, Jun 18, Dec 31; Cycle B on Dec 24. Many employers pay the business day before; check with yours.

Inside: this page, both cycles side by side (page 2), a full-year calendar for each cycle (pages 3 and 4), and a page to plan your extra paychecks (page 5).

General information, not financial or tax advice. Dates assume a strict every-14-days Friday schedule; your employer's actual pay dates can differ (holidays, payroll changes). © 2026 Cedar & Ledger. Free for personal use.
